

# Elcomsoft Phone Viewer Receives an Important Update

Moscow, Russia - May 19, 2015 - ElcomSoft Co. Ltd. updates [Elcomsoft Phone Viewer](#), a tool allowing for mobile forensic experts viewing information contained in mobile backups. Version 1.1 comes with major performance improvements, and supports extra-large Messages and Calls databases with thousands entries. In addition, the newly added searching and filtering functions enable convenient navigation through Contacts, Calls, Notes and Messages, allowing experts to quickly locate entries of interest.

“We made Elcomsoft Phone Viewer not only faster, but a lot more usable”, says Vladimir Katalov, ElcomSoft CEO. “The tool’s selling points are its

small size, fast speed and the ultimate ease of use compared to full-scale mobile forensic suites. In this release, we further developed on the strengths of the product, making it even faster and more convenient than ever before.”

## What’s New in Elcomsoft Phone Viewer

Elcomsoft Phone Viewer 1.1 offers a list of major performance and usability improvements, adds support for latest iOS and BlackBerry versions, supports group chats, and implements convenient searching and filtering in many fields. Major improvements include:

1. Stark performance boost when viewing Messages and Calls databases with thousands of entries.
2. Near-instant full-text search through Calls, Messages, Notes and Contacts.
3. Convenient filtering of Contacts and Messages enables locating items of interest in a snap.
4. Picture support for iOS and BlackBerry 10 messages.
5. Background check for updates notifies about available updates as soon as they become available.

## About Elcomsoft Phone Viewer

[Elcomsoft Phone Viewer](#) is a compact, fast and easy to use mobile forensic tool to enable experts viewing information stored in unprotected local and cloud backups. Supporting backups produced by popular Apple, BlackBerry and Windows Phone devices, tool offers access to contacts, messages, call logs, notes and calendar, and allows viewing information about the device. The small, inexpensive tool offers a simple and convenient user interface that matches the usage experience of Elcomsoft Phone Breaker, thus requiring no additional learning curve.

[Elcomsoft Phone Viewer](#) is a perfect tool when time is the ultimate priority. By using Elcomsoft Phone Viewer together with other ElcomSoft tools such as Elcomsoft Phone Breaker, investigators can save time by reviewing essential bits of information in just a few moments. By quickly download selective information from Apple iCloud with Elcomsoft Phone Breaker and viewing acquired information in Elcomsoft Phone Viewer, investigators can obtain essential information about the suspect such as their calls, messages, address books and location history in a matter of minutes.

### **The tool supports all of the following formats:**

iOS: Local iTunes backups as well as iCloud backups downloaded with Elcomsoft Phone Breaker produced with all versions of iOS up to 8.3 and with all Apple devices including the latest iPhone 6 and iPhone 6 Plus.

Windows Phone 8 and 8.1: Information downloaded from Microsoft cloud with Elcomsoft Phone Breaker

BlackBerry 10: Elcomsoft Phone Viewer is one of the very few tools capable of displaying BlackBerry 10 backups.

### **Pricing and Availability**

[Elcomsoft Phone Viewer](#) is available immediately. At this time, the Standard edition is the only one available. The Standard edition of Elcomsoft Phone Viewer is available to North American customers for \$79.

### **System Requirements**

At this time, Elcomsoft Phone Viewer is only available for Windows PCs; a Mac version is in development. Future releases will include the ability to access app-specific data as well as information extracted with Elcomsoft iOS Forensic Toolkit via physical acquisition.

Elcomsoft Phone Viewer runs in 32-bit and 64-bit editions of Windows Vista, Windows 7, 8, 8.1, as well as Windows 2003, 2008 and 2012 Server. Elcomsoft Phone Viewer operates without Apple iTunes or BlackBerry Desktop Software being installed.
